TO: All County Engineers/Public Works Directors

FROM: Jay Armstrong, CRAB Deputy Director

RE: Questionnaire

Thanks to all who attended the initial gravel road meeting in Ritzville on April 25. As I continue putting ideas together for a draft, I will need some information from the counties. Please answer the following questions and FAX to (360) 586-0386 or mail back to CRAB.

I intend to have a draft in about 2 weeks for comments. As much information as I have will be included in the draft. Thank you for your support.

1. Do you have a policy or ongoing program to upgrade gravel/unpaved roads? (If a written policy, please send CRAB a copy)
2. Are you upgrading to a full design standard, or to a lower standard?
3. Approximately, what is the cost per mile of your upgraded roads?
4. Your philosophy on upgrading the gravel roads. (any thoughts?)
