

**The CRAB Mobility Team is happy to announce the release of Mobility 3.3.0.**

Mobility 3.3.0 includes several report enhancements, new reports and some general improvements to the application.

1. Report changes include:
  - a. Shoulders have been added to the Audit Trail Summary Report.
  - b. The PSC Weighted Average Summary Report now only reports ratings for the selected year, not the most recent rating date.
  - c. The Road Rating Status Report is now more user-friendly, includes the option to select Jurisdiction Code(s) and displays the PSC.
  - d. Added report 'CLAS Collisions Within Road Log Segments'.
  - e. Added 'Truck Route Classification Integrity Report'
  - f. The years on the chart in the 'Network Condition' have been repositioned so that they aren't covered up by trend lines with a zero value.
  - g. Many canned reports now have a sort by 'Road Number' or 'Road Name' option.
2. New surface types:
  - a. PAP - Porous Asphalt Pavement
  - b. PCP - Pervious Concrete Pavement
3. The data feed date has been added to the Bridges screen and Bridge reports.
4. A 'Print Query' capability has been added to the Custom Report Designer Query window. It will print the query that has been created.
5. The comment character limit in Surface History and Road Log has been increased to 400 characters.
6. The option to update Road Log from traffic study results now clearly states that 'All Through Lanes' is required to use.
7. Several minor bug fixes were handled, the most notable are:
  - a. Only paved surfaces are available for 'Left Inside Paved Shoulder' in Road Log.
  - b. The 'zig zag' issue has been resolved in the Mobility Map viewer when adding shape files with a projection file, and Mobility database layers.

As always we value and welcome your feedback. If you have any suggestions, comments, issues, etc. please fill out the feedback form available under the Mobility help menu or on our website at [http://www.crab.wa.gov/Technology/Mobility/pgs/feedback\\_report.cfm](http://www.crab.wa.gov/Technology/Mobility/pgs/feedback_report.cfm).

If you have any immediate questions or support needs, email us at [MobSupport@CRAB.wa.gov](mailto:MobSupport@CRAB.wa.gov) or call (360)753-5989.

Thank you for your continued feedback and support.

The Mobility Team
