OPENING DATE	Jan. 23, 2008
CLOSING DATE	Open until filled
GENERAL PURPOSE	Perform engineering activities including data collection, design preparation, maintenance of engineering records and other related technical support. May perform any phase of public works construction and "as-built" inspections to assure compliance with plans, specifications, and applicable standards.
MINIMUM QUALIFICATION	Requires knowledge equivalent to that received through graduation from high school, plus additional pre-engineering or related course work in vocational training or college level courses, or equivalent knowledge gained through experience. Requires full scope of knowledge of preliminary civil engineering design and drafting as related to construction and public works projects. Requires extensive knowledge of engineering construction terms and methods, including

construction inspection procedures. Demonstrates ability to use algebraic formulas, trigonometry tables, and statistical mathematics to accomplish the level of works described herein. Requires the ability to interpret and communicate engineering plans and specifications. Previous experience desirable of sufficient length of time to prove competency in the skill area, including supervisory experience.

**SPECIAL  
REQUIREMENTS**

Valid Washington State Driver's License with no restrictions is required. This position is subject to drug and alcohol testing.

**APPLICATION**

The position(s) will be filled through the current applicant file, and by any other applications received or postmarked by February 15, 2008.
