

WASHINGTON STATE

**COUNTY ROAD  
ADMINISTRATION BOARD**

# **DESK REFERENCE MANUAL**

---

FOR COUNTY ENGINEERS  
AND PUBLIC WORKS DIRECTORS

**JUNE 2025**

## **Introduction**

This County Engineer's and Public Works Director's Desk Reference (Desk Reference) is intended primarily for use by individuals already possessing a working knowledge of counties and county road issues. Most of the covered topics include only basic information that may not eliminate the need for additional research.

The County Road Administration Board (CRAB) continues to develop resource materials to support the work performed within the Office of the County Engineer. Work on these resources is an ongoing CRAB effort in order to provide both current information as well as develop new resources as legal and technical issues arise.

The Desk Reference document has been designed to be used primarily as a computer "desktop" electronic document. When opened on a computer that is also connected to the internet, the embedded hot-links provide immediate access to supplemental internet resources. The goal is to provide a tool that simplifies research.

All reference material provided by CRAB is intended to be general guidance and should not be used to replace qualified legal review pertaining to the application of laws, rules, policies, and contracts. No training or reference material should ever replace "due diligence" when investigating the full extent and applicability of laws, rules, policies, and contracts. This is especially true due to issues and requirements that are unique within the context of an individual county's codes, policies, contracts, and operational circumstances.

CRAB welcomes comments and recommendations that improve content, accuracy, and clarity. CRAB requests your assistance in identifying any "broken" hot-links that you may come across during use of the Desk Manual.

**Any questions or comments about the information contained in this document, or requests for the inclusion of additional topics and supplemental information, should be directed to the County Road Administration Board (360-753-5989), or by email to "Engineering@crab.wa.gov".**

Staff contact – Derek Pohle PE, [derek.pohle@crab.wa.gov](mailto:derek.pohle@crab.wa.gov), 360.305.6082

<b>1.1</b>	<b>County Governance and Transportation</b>	
	<b>County Governance</b>	<b>1.1.1</b>

[Supp Res](#)   [TOC](#)

## **County Governance** - [Constitution](#) of the State of Washington

Article XI - County, City, and Township Organization

## **County Governance** - Statutory

[Title 36 RCW](#) - Counties

[RCW 36.32.120](#) - Powers of legislative authorities

## **Commission Form**

All non-charter counties must adopt this form of government (often referred to as the "plural executive" form of government. The board of county commissioners share administrative and, to some extent, legislative functions with the independently elected county officials.

[RCW 36.32](#) - County Commissioners

[RCW 36.32.055](#) - Five-member commission ... Spokane and Thurston

## **Home Rule Form**

[Constitution](#) of the State of Washington:

Article XI - County, City, and Township Organization, Section 4

“Any county may frame a ‘Home Rule’ charter for its own government ...”

Current 7 counties with Home-Rule Charters:

	<u>Original Adoption Date</u>
<a href="#"><u>Clallam</u></a>	1977 - limited
<a href="#"><u>Clark</u></a>	2015 – limited ... Council, Appointed Co. Administrator
<a href="#"><u>King</u></a>	1969 – full ... Council, Elected Co. Executive
<a href="#"><u>Pierce</u></a>	1981 – full ... Council, Elected Co. Executive
<a href="#"><u>San Juan</u></a>	2006 - limited
<a href="#"><u>Snohomish</u></a>	1980 – full ... Council, Elected Co. Executive
<a href="#"><u>Whatcom</u></a>	1979 – full ... Council, Elected Co. Executive

<b>County Officials</b>	<b>1.1.3</b>
-------------------------	--------------

[Supp Res](#)   [TOC](#)

## **Elected Officials**

Counties differ significantly from cities in the number of independently elected officials, with each having unique constitutional and statutory responsibilities. Although home rule charter counties have the ability to change the status and function of some of the county elected officials, certain limitations are provided in the state constitution.

County Assessor ([RCW 36.21](#))

County Auditor ([RCW 36.22](#))

County Prosecuting Attorney ([RCW 36.27](#))

County Sheriff ([RCW 36.28](#))

County Treasurer ([RCW 36.29](#))

County Clerk ([RCW 36.23](#))

County Coroner ([RCW 36.24](#))

District Court Judges

[Title 3 RCW](#) - District Courts - Courts of Limited Jurisdiction

[RCW 3.34](#) - District Court Judges

Superior Court Judges

[Title 2 RCW](#) - Courts of Record

[RCW 2.08](#) - Superior Courts

## **Appointed Officials**

In addition to the County Engineer, the following list of appointed officials is limited to those specifically referenced in RCW and WAC and that can impact success of the Road Dept. :

### **Clerk of the Board**

- [RCW 36.22.010](#) (6) - Duties of the County Auditor as the clerk of the board
- [RCW 36.32.110](#) - Allows appointment other than County Auditor

### **Emergency Management Director**

- [RCW 38.52](#) and [WAC 118-30](#)

### **Planning Director**

- [RCW 36.70](#) - Planning enabling act
- [RCW 36.70.030](#) - Appointment of planning director by Planning Commission - OR -  
[RCW 36.70.040](#) - Creation of planning department by Board of County Commissioners, and appointment of a director
- [RCW 36.70A](#) (GMA) - no specific reference to this staff title
- [RCW 47.26.121](#) - Member of TIB

### **Purchasing Agent**

- [RCW 36.32.235](#) - Purchasing Departments (over 400,000 population)
- [RCW 36.32.240](#) - Purchasing Departments (under 400,000 population)
- [RCW 36.32.260](#) - In any county having a purchasing department the board of county commissioners shall appoint a county purchasing agent

### **Risk Manager**

- [RCW 48.62](#) and [WAC 200-100](#) - county self-insurance authority and requirements
- [RCW 48.62.031](#) - Self-insurance program requires appointment of risk manager (may be contracted)
- [RCW 72.09.300](#) - County shall form a local law and justice council, and the county risk manager shall be a member

### **County Administrator/Manager**

- Locally established title, with no specific RCW or WAC reference other than pertaining to local/regional staffing for public assistance programs ([RCW 74.04](#))

### **Public Works Director**

- Title is common within municipal governments (position locally created)
- [RCW 47.26.121](#) – Position Title member of TIB Board

<b>Section 2</b>	<b>Office of the County Engineer</b>	
------------------	--------------------------------------	--

<b>2.1</b>	<b>County Engineer's Responsibilities</b>	
------------	---	--

	<b>Introduction to the Office of the County Engineer</b>	<b>2.1.1.0</b>
--	--	----------------

[Supp Res](#) [TOC](#)

### **Functional Roles of the Person Holding the Title of County Engineer:**

#### Public Official

[RCW 36.80.010](#) - Employment of road engineer.

[RCW 36.80.020](#) - Qualifications -- Bond

(see also [RCW 42.08](#) - Official bonds)

[RCW 36.75.020](#) - County Roads -- County legislative authority as agent of state

#### Professional Engineer

[RCW 36.80.020](#) - Qualifications

[RCW 18.43](#) - Engineers and Land Surveyors

[Title 196 WAC](#) - Board of Registration for Professional Engineers and Land Surveyors

#### Member of a County Department(County Road Department)

Due to the scope and scale of departmental responsibilities, the position of County Engineer within the organization's structure may vary due to:

- Combined with or separate from the Public Works Director
- Road Department versus multi-purpose Public Works Department
- With or without members of the staff holding "assistant" titles
- The number of licensed professional engineers on staff
- Level of accounting and other administrative skills of other staff
- Rural versus urban service focus
- Large or small county

#### Oversight/Quality Control

See also [Section 2.2.0](#) for "delegation of authority"

### **Reading and Application of RCWs, WACs, and Other Rules**

The RCWs and WACs are not scripts that make all questions easy to answer.

- Applied through literal reading
- Interpretation must be made in the context of all RCWs and WACs
- At times interpreted and clarified by:
  - Case Law
  - Attorney General Opinions ([AGO](#))
- The County Prosecuting Attorney is your legal advisor for interpretation and application of law

Any printed laws or rules, or summaries thereof, always have the potential for obsolescence due to continual potential for new and/or amended language. **No training or reference material is intended to replace “due diligence” when investigating the full extent and applicability of established rules and past practices.** This is especially true due to issues and particular requirements that may be unique due to individual county’s codes and policies.

See also Municipal Research and Services Center - [County Codes](#) - for access to existing local codes

Since many local codes specifically refer to, supplement, or otherwise implement state law, a common challenge for counties is ensuring that their own codes are updated each time a change in state law occurs. At those times a local code appears to be in conflict with state law, the immediate operational impact may not be obvious or quickly resolved.

	<b>Road Purpose</b>	<b>2.1.1.2</b>
		<a href="#">Supp Res</a> <a href="#">TOC</a>

***In developing a response to the question “can I expend County Road Funds on \_\_\_\_\_”, the following three principles must be applied:***

1. Article II, Section 40 (18th amendment), of the state [constitution](#) restricts the use of motor vehicle fees and excise taxes (fuel tax) to only highway purposes.  
(See also the Joint Transportation Committee “[Transportation Resource Manual](#)” for additional details pertaining to the 18<sup>th</sup> Amendment)
2. The local Road Levy (property tax) is imposed only on properties in the unincorporated areas of the county, and must be used solely for the benefit of the unincorporated area.
3. The state must first create and grant authority to counties to act before a county may exercise a governmental authority. A county may not create and implement any local code or take any action unless clearly permitted to do so by the state through RCW (including, but not limited to [RCW 36.82.070](#))

Three additional factors that influence the application of the first three:

4. Comingled revenue sources in the Road Fund  
[RCW 36.82.010](#) - "County Road Fund" created  
“There is created in each county of the state a county fund to be known as the ‘county road fund.’ Any funds which accrue to any county for use upon county roads, shall be credited to and deposited in the county road fund”  
Comingled funds --- Each individual revenue deposited in the Road Fund receives the aggregated legal protections of every other revenue deposited in the fund.  
Within the context of principle #3, there is extremely limited permission in statute to create accounts in order to separate Road Fund revenues for different purposes. Other than these very specific statutory permissions, the Road Fund is to be managed as a single financial resource.
5. Access to and use of road related revenues are subject to ongoing compliance with all applicable laws, rules, and required procedures.
6. Other revenue sources, such as local option taxes, grants, and fees, all have unique rules, but they cannot be used in a way that would conflict with #1, #2, and #3.

#### Protection of Road Funds - [RCW 47.08.110](#)

*“It shall be unlawful and a misdemeanor, unless...by... law... a felony or gross misdemeanor, to divert or use, or authorize, permit or participate in the diversion or use of any moneys in the county road fund... for any other purpose or in any other manner than that authorized by law.”*

	<b>Revised Code of Washington (<a href="#">RCW</a>)</b>	<b>2.1.2</b>

	<b>Federal Laws and Administrative Codes</b>	<b>2.1.5</b>
		<a href="#">Supp Res</a> <a href="#">TOC</a>

### [United States Code \(USC\)](#)

The United States Code is the codification by subject matter of the general and permanent laws of the United States. It is divided by broad subjects into 50 titles and published by the Office of the Law Revision Counsel of the U.S. House of Representatives.

### [Code of Federal Regulations \(CFR\)](#)

The Code of Federal Regulations (CFR) is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

### [Federal Register](#)

Published by the Office of the Federal Register, National Archives and Records Administration (NARA), the Federal Register is the official daily publication for rules, proposed rules, and notices of Federal agencies and organizations, as well as executive orders and other presidential documents.

 (select “initiatives and referenda” topics)

	<b>Risk Management</b>	<b>2.1.7</b>
		<a href="#">Supp Res</a> <a href="#">TOC</a>

Risk – anything that could prevent the achievement of a goal

- Risk of ... event, harm, loss, error, etc.
- Frequency (likelihood of occurrence)
- Severity (cost or impact of occurrence)
- Risk should not to be confused with “liability” (being responsible)
  - it is possible to experience “cost” without being “liable”
  - it is possible to be “liable” without experiencing “cost”

Manage Risk – A combination of techniques is used

- Avoid or otherwise eliminate the risk
- Reduce the likelihood of an incident occurring
- Reduce the magnitude or significance of an incident
- React to an incident to minimize reoccurrence
- Transfer risk through regulation, policy, and contracts

Risk Management 5-Step Process

1. Identify and Analyze Loss Exposures
2. Examine Risk Management Alternatives
3. Developing a Risk Management Strategy
4. Implement the Strategy
5. Evaluate, Monitor and Improve

Legal Action and Liability

- Tort --- a civil wrong or wrongful act
- Responsibility (liability) due to:
  - Applicable laws, rules, standards, and policies
  - Case law (recognized court decisions)
  - Historical practice and precedent
- Resolution based on:
  - Establishing right versus wrong -- and/or --
  - Applying a business decision to minimize cost
- Joint and Several - [RCW 4.22.070](#)

When a claimant is determined to have no fault, all defending parties (two or more) assigned some portion of fault are jointly and severally liable for total damages. The winning plaintiff in such a case may collect the entire judgment from any one of the parties, or from any and all of the parties in various amounts until the judgment is paid in full. In other words, if any of the defendants do not have enough money or assets to pay their share of the award, the other defendant(s) must make up the difference.
- Section 1983 [Federal Civil Rights Act](#)

Any action in which it is determined that a person’s civil rights or civil liberties have been impacted are subject to a claim and lawsuit under this Act.

- Traditional Rules for Road Liability
  - (1) Must be a “defect” in or closely proximate to road
  - (2) Defect must be unusual or an extraordinary condition or hazard
  - (3) County must receive “notice” of defect
    - Actual (county was aware of the defect)
    - Constructive (county should have been aware of the defect)
    - County created the defect
  - (4) County has option to repair defect or to otherwise warn of its presence
  - (5) Warning signs required only if
    - Required by law
    - Road defect is inherently dangerous or misleading
  - (6) No duty to repair or warn of open and apparent road defects (obvious)

## Immunity

### Recreational Immunity

[RCW 4.24.210](#) - Liability of owners or others in possession of land and water areas for injuries to recreational users - limitations

### Discretionary Immunity

The authorized exercise of judgment by the public organization, usually at the legislative authority level, not mere implementation of a judgment at the operational level. The public body must show decision involved making of policy, including evidence of the process by which the decision was reached.

### Equine Activities

[RCW 4.24.540](#) - Limitations on liability for equine activities - exceptions

See also US Code [Title 23, Section 409](#) regarding collection and analysis of traffic data

<b>2.2</b>	<b>Organization Management</b>	<b>2.2.0</b>
------------	--------------------------------	--------------

[Supp Res](#) [TOC](#)

### **Delegation of Authority**

What is the legal role versus day-to-day supervisory role of the County Engineer within the County's organization? (Pertains to matters of legal authority and responsibility -- not of personal preference)

- Who has the Authority & Responsibility assignment:
- Delegation through "Chain of Command"
  - Summarized via organizational chart
  - Supervisor-Subordinate relationship
  - Delegation usually detailed via job description
  - Delegation should be clear, including review and oversight protocols
- Delegation through "Transfer of Authority" – Common in charter counties
  - Individual(s) taking action must possess both
    - the responsibility being considered for transfer
    - the authority to transfer the responsibility
  - Individual(s) must Retain
    - Ability to review performance / compliance
    - Ability to withdraw delegation
  - Individual receiving the delegated authority must be
    - Qualified to perform the function
    - Capable (time and skill) to successfully perform the function

### **Labor Management**

See Municipal Research and Services Center MRSC for guidance on:

[Management](#) and [Personnel](#)

- U.S. Department of Commerce - [HR Policy Library](#)
- Free Management Library - <http://managementhelp.org/>

See also APWA [Accreditation & Self Assessment](#)

**Budget, Accounting, & Reporting System (BARS)**

[RCW 43.09.200](#) - Local government accounting -- Uniform system of accounting

“The state auditor shall formulate, prescribe, and install a system of accounting and reporting for all local governments, which shall be uniform for every public institution, and every public office, and every public account of the same class. ...”

**Accounting Basis**

- Single entry accounting / cash basis
- Double entry / modified accrual (Generally Accepted Accounting Principles (GAAP))
  - Guidance established by the Governmental Accounting Standards Board ([GASB](#))

**Most common types of funds within County operations**

- Governmental fund types include the general fund, special revenue funds, debt service funds, capital projects funds, and permanent funds.  
Example: Road Fund
- Proprietary fund types include enterprise funds and internal service funds.  
Examples: ER&R Fund (internal service)  
Solid Waste Fund (enterprise)
- Fiduciary fund types include pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and agency funds.  
Example: Pooled investment trust fund on behalf of Special Purpose Districts

**Internal Control**

Internal control is a process of checks-and-balances implemented in order to assure that administrative records accurately describe all financial transactions. Common terminology and concepts associated with “internal control” include:

- Financial Records (open / available / accurate / reliable)
- Financial Transactions (risk of error or loss)
- Management Control / Regulatory Compliance

**Separation of Duties**

Separation of duties has as its primary objective the prevention of fraud and errors.

No one person should handle more than one type of function without proactive review:

<u>Accounting Terminology</u>	<u>Operational Example</u>
authorization	decision to purchase
custody	receipt of acquired item
payment	write / issue checks
record keeping	accounting of transaction
reconciliation	audit of transaction

## **Reports**

### Financial Reports

BARS is a fixed Chart of Accounts wherein revenues and expenditures are tracked using specific account codes. General focus is on the actual revenues and expenditures in comparison to budgeted amounts (budget status).

### Management Reports

Reports that combine and compare “financial” information with “performance” information. Assigning project numbers, work order numbers, etc., can facilitate generation of a variety of managerial reports.

## **Assets**

Inventoried assets include consumable items (office supplies, nuts and bolts, fuel, etc.) and capital assets (vehicles/equipment, land, infrastructure, etc.). In addition to the “good business” reasons for proactive inventory management, Counties are legally required ([RCW 36.32.210](#)) to maintain inventories of capital assets, regardless of accounting methodology.

Measuring the status of assets through:

- Acquisition cost / Expected life
- Capitalization threshold / Capital expense
- Depreciation schedule / Depreciated value
- Surplus / Salvage Value

## **Interfund Transactions**

Most common interfund transactions involving the County Engineer:

- Overhead (personnel benefits, pre-established “fee” structure for general governmental services, etc.)
- Indirect Costs (***must have an indirect cost allocation plan***)
- Internal Service Charges (for office space, computers, etc.)
- ER&R Fund (fleet operations and consumable materials)
- Reimbursable Work (for other divisions / departments)
- Interfund Loans
- Direct Transfers (i.e. traffic policing)

## **Greatest potential for problem**

[RCW 43.09.210](#) - Local government accounting -- Separate accounts for each fund or activity

“Separate accounts shall be kept ... All service rendered ... or property transferred ... shall be paid for at its true and full value ... and no department, public improvement, undertaking, institution, or public service industry shall benefit in any financial manner whatever by an appropriation or fund made for the support of another.”

### **--- one fund benefiting another ---**

(the following are excerpts from a SAO presentation (June 23, 2011))

- “Can’t transfer dedicated funds without a benefit or service to that fund ...”
- “In order to be equitable, the charges must be:
  - Only for the cost of the services actually provided
  - Only for each fund/department’s proportionate share
  - Calculated using measurable, logical and documented allocation factors that are current and accurate ...”

<b>2.4</b>	<b>Purchasing and Contracts</b>	<b>2.4.0</b>
------------	---------------------------------	--------------

[Supp Res](#) [TOC](#)

**Note: Most counties have additional limitations and procedural requirements** (local codes) that supplement and/or further restrict statutory provisions.

Refer to Municipal Research and Services Center (MRSC), [Purchasing and Contracting](#) for Local Gov. (see also the "[County Bidding Book](#)").

#### **Key statutory references -**

[RCW 36.32.235](#) thru 270 (County / Competitive Bids)

[RCW 36.32.235](#) (counties with purchasing departments, with population of 400,000 or more)

[RCW 36.32.240](#) (counties with purchasing departments, with population less than 400,000)

*County Road and ER&R not required to go thru purchasing agent/dept.*

[Title 39 RCW](#) - Public Contracts and Indebtedness

[RCW 39.04](#) - Public Works

[RCW 39.12](#) - Prevailing Wage

[RCW 39.80](#) - Architectural and Engineering Services

#### **Terminology**

Process required is one of the following:

Minimal competition / Informal competition / Formal competition

Purchase of "things" within certain financial limits

Direct Purchase / Small Works / Bids / Negotiated

Uniform Small Works Roster Provisions – contracts under \$350,000 ([RCW 39.04.152](#))

- Small Works Roster ([RCW 39.04.151](#))

Request for Qualifications (RFQ) and Request for Proposals (RFP)

- Price to be included and considered in requests for services (except engineering / architectural)
- Engineering/Architectural services selection based on "most-qualified" with a negotiated price following selection ([RCW 39.80](#))

Decision-making - may consider

- Best value (if advertisement includes criteria and decision making process)
- Sole Source ([RCW 39.04.280](#))
- Local Sales Tax benefit ([RCW 39.30.040](#))

Public Work

[RCW 39.04.010](#) - Definitions

"... all work, construction, alteration, repair, or improvement other than ordinary maintenance, executed at the cost of the state or of any municipality ..."

“Ordinary Maintenance” is not defined within RCW. Within the context of rules pertaining to the application of “prevailing wage”, the Department of Labor and Industries (LNI) defines it as:

[WAC 296-127-010](#) (7)(b)(iii) “Ordinary maintenance ... is defined as work not performed by contract and that is performed on a regularly scheduled basis (e.g., daily, weekly, monthly, seasonally, semiannually, but not less frequently than once per year), to service, check, or replace items that are not broken; or work not performed by contract that is not regularly scheduled but is required to maintain the asset so that repair does not become necessary. ...”

## **Alternate Purchasing Methods**

[RCW 39.10](#) - Alternative public works contracting procedures

### Design-build procedure

A contract between a public body and another party in which the party agrees to both design and build the facility, portion of the facility, or other item

### General contractor/construction manager - GC/CM

A firm with which a public body has selected and negotiated a maximum allowable construction cost to provide services during the design phase and to act as construction manager and general contractor during construction

### Job order contract

A contract in which the contractor agrees to a fixed period, indefinite quantity delivery order contract which provides for the use of negotiated, definitive work orders for public works as defined in [RCW 39.04.010](#).

Capital Projects Advisory Review Board ([CPARB](#)) was created to oversee the application of the above (housed within the Department of Enterprise Services)

[RCW 36.32.250](#) allows the use of Small Works Roster process (procedural requirements described in [RCW 39.04.155](#))

See also Municipal Research and Services Center, [Small Works Roster Manual](#) for Local Governments.

Individual counties may implement and utilize Small Works Rosters. As a preferred alternative, various entities jointly utilize a Small Works Roster through Municipal Research and Services Center (MRSC). ([www.mrscrosters.org](http://www.mrscrosters.org)):

## **Interlocal Agreements**

Interlocal Agreements are contracts between governmental entities, generally authorized by [RCW 39.34](#) - Interlocal cooperation act

Not to be confused with less formal agreements

- memorandum of agreement (MOA)
- memorandum of understanding (MOU)

## Engineering / Architectural Services

While the Interlocal Cooperation Act ([RCW 39.34](#)) provides for a great deal of flexibility for intergovernmental service provision:

([AGO 2011-2](#)) "Cities, counties, and special districts cannot contract directly with another agency for architectural and engineering services without first complying with the procurement procedures set forth in [RCW 39.80](#), except where the legislature has granted specific statutory authority to do so."

[RCW 35.77.020](#) (2) grants authority for a county to perform engineering for a city

## Work for Cities

[RCW 35.77.020](#) - Agreements with county for planning, establishment, construction, and maintenance

[RCW 35.77.030](#) - Agreements with county for planning, establishment, construction, and maintenance ... contracts, bids

- may expend from Road Fund, with full reimbursement from the city
- conducted by county through its normal road work procedures
- use of county forces limited to \$10,000, except:
  - in emergency situation
  - bids unobtainable or county can perform at lower cost than bid results

[RCW 47.24.050](#) - Aid on streets by state or county ...

- similar authorization as generally stated in 35.77.020 and .030

## **Emergency Response**

Purchasing in the context of local waiver of competitive bidding

[RCW 39.04.280](#) - Competitive Bidding Requirements - Exemptions

Purchasing in the context of a disaster

[RCW 38.52](#) - Emergency Management

[RCW 38.52.010](#) - Definitions

"(6)(a) "Emergency or disaster" as used in all sections of this chapter except [RCW 38.52.430](#) shall mean an event or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, ... or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to [RCW 43.06.010](#).

[RCW 38.52.070](#) - Local Organizations ...

"(2) In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in [RCW 38.52.020](#) occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. ..."

Mutual Aid Agreements is a specific application of interlocal agreement authority

See also [Section 4.7.0](#) - Emergency Response

<b>Section 3</b>	<b>Program and Project Planning</b>	
------------------	-------------------------------------	--

<b>3.1</b>	<b>General Planning and Financial Issues</b>	
------------	--	--

	<b>Plan, Implement, Report</b>	<b>3.1.1</b>
--	--------------------------------	--------------

[Supp Res](#) [TOC](#)

### **Repeating Calendars**

- (1) Local, state, and federal fiscal years
- County Fiscal Year = Calendar Year
  - Washington State Fiscal Year = July 1st through June 30th (biennium begins on July 1st of odd numbered years).
  - Federal Fiscal Year - October 1st through September 30th.

Note: the name of the “fiscal year” is the date (year) at end of the accounting period

- (2) Three distinct administrative tasks must occur within each county fiscal year
- reporting the results from the previous year
  - implementing the current year’s program
  - planning for the following year(s)

- (3) Long-range planning - in most cases for transportation purposes the required formal planning horizon is six years.
- repeating plan-implement-report is a continuous exercise (annual review and adoption)
  - long-range planning should always influence short-term decision-making and actions
  - challenge to connect long-range plans with the budgeting process and dynamic operations

	<b>Revenues</b>	<b>3.1.2</b>
--	-----------------	--------------

	<b>Property Taxes</b>	<b>3.1.2.1</b>
--	-----------------------	----------------

[Supp Res](#) [TOC](#)

When dealing with property taxes, some of the common terminology includes:

- Ad valorem tax - A tax based on the value of property
- Levy - The act of imposing taxes, assessments or charges, OR, the total amount of taxes, assessments or charges imposed by a governmental unit
- Levy Rate - The rate necessary to raise the amount of taxes for any taxing district within the county, expressed in dollars and cents per one thousand dollars assessed value
- Levy Limit - The restriction on the amount that a district's property tax levy may increase over the highest lawful levy since 1985
- Lid-lift - A ballot measure, wherein the voters authorize the district to increase their levy rate beyond the levy limit

Note: Most of the above information taken from the Washington State Department of Revenue - [Operations Manual - Property Tax Levies](#), otherwise known as the "[Levy Manual](#)" - available at the DOR web-site / publications / property tax

Revenue collected as a result of property taxes is highly regulated, with specific limitations.

Limitations upon regular property tax levy rates ( <a href="#">RCW 84.52.043</a> )		Max allowed per \$1,000	Levy Shift Max	
Senior Districts	County Current Expense	\$ 1.80	\$ 2.475	\$4.05 combined
	<b>County Road</b>	\$ 2.25 *		
	City / Town	\$ 3.375 **		
	State Common School	\$ 3.60 ***		
Junior plus Senior Districts, less state		\$ 5.90 ****		
Junior plus Senior Districts, including state		\$ 9.50		

\* County Road Levy includes amount diverted to the Current Expense fund

\*\* Exceptions apply when part of fire or library district

\*\*\* Statewide equalized rate

\*\*\*\* State, Ports, PUDs, EMS, Affordable Housing, Conservation Futures, County Ferry Districts, Criminal Justice, and Transit levies are not subject to this limit. (Other exceptions also apply)

See also: [WAC 458-19](#) pertaining to levies, limitations, and refunds  
DOR - [Highest Lawful Levy](#) calculation (levy forms)

## **Taxation Decisions by the Legislative Authority versus a Voted Ballot Measure**

[RCW 84.52.010](#) – Taxes levied or voted in specific amounts ...

“(1) Except as is permitted under [RCW 84.55.050](#), all taxes must be levied or voted in specific amounts. ...”

Note: [RCW 84.55.050](#) allows for an increase in the amount of property tax levied by a taxing district, otherwise restricted under other statutory limitations, through a public vote.

### **Levy Shift**

A levy shift is literally the shifting of taxing authority from the Road District (unincorporated area taxation only) to the general county levy (county-wide taxation). While there are numerous procedural steps required prior to implementing a levy shift, the result of such action does not carry any limitations on the use of resulting funds other than those normally assigned to general county government purposes. ([RCW 84.52.043](#))

See also WA Department of Revenue [Levy Manual](#), Section 6.4

### **Road Levy Diversion**

As described in [RCW 36.82.040](#), once collected the road levy is deposited into the road fund and used exclusively for road purposes. However, “diversion” of a portion of the road levy literally means that a portion of this revenue is never deposited in the road fund. Within [RCW 36.82.040](#) there are two exceptions listed:

- [RCW 36.33.220](#) allows use of diverted road levy for any service provided *in* the unincorporated area
- [RCW 39.89](#) allows for the financing of community revitalization

#### **RAP Eligibility**

Even though a portion of the Road Levy diverted within the authority of [RCW 36.33.220](#) can be used for any unincorporated area service, if the diverted Road Levy is used for anything other than traffic law enforcement the county immediately loses eligibility for Rural Arterial Program funds ([RCW 36.79.140](#)). Exception to this includes only counties:

- with a population of less than eight thousand; or,
- that expend these funds pursuant to a voter-approved action under [RCW 84.55.050](#) (voter approved levy for a specific purpose); or,
- that established community revitalization under [RCW 39.89](#)

<b>Fuel Tax</b>	<b>3.1.2.2</b>
	<a href="#">Supp Res</a> <a href="#">TOC</a>

#### [RCW 82.38.020](#) Definitions

“(14) ‘Fuel’ means motor vehicle fuel or special fuel.”

“(22) ‘Motor vehicle fuel’ means gasoline and any other inflammable gas or liquid ...”

“(29) ‘Special fuel’ means diesel fuel, propane, natural gas, kerosene, biodiesel, and any other combustible liquid or gas ...”

See [Section 4.2.0](#) regarding tax exemption on Special Fuel

[RCW 82.38](#) - Pertains to the establishment and collection of fuel tax

[RCW 46.68](#) - Pertains to the distribution of transportation related revenues, including fuel tax

The Fuel Tax is a major revenue source for financing transportation programs and projects in the state. (Note: 1-cent of fuel tax (2025) = approximately \$33M)

RAP is a competitive grant program – see [Section 3.2.8](#)

Rural Arterial Program - [RCW 46.68.090](#) (2)(j)

CAPP is a grant program based on a distribution formula – see [Section 3.2.9](#)

County Arterial Preservation Program - [RCW 46.68.090](#) (2)(i)

General Fuel Tax Distribution to Counties– see also CRAB Website regarding [Fuel Tax](#)

- 10% split **equally** between the 39 counties
- 30% split based on “equivalent” **population**
- 30% split based on system maintenance and replacement **costs**
- 30% split based on financial **needs** (“costs” compared against selected revenues)

The General Distribution to counties is based on the above 10-30-30-30, subject to:

- [RCW 46.68.122](#), [46.68.124](#) (allocation factors by CRAB by Sept. 1st each year)
- [RCW 46.68.120](#) - deductions prior to distribution
  - CRAB and WSDOT-Local Programs administration
  - Island counties ([RCW 46.68.080](#))(1)-(4)
  - Studies (study money)
- [RCW 47.56.725](#) - deduction for county ferries(fare deficit reimbursement)
- [RCW 46.68.090](#) (2)(h) – County Ferry Capital Improvement Program
- [RCW 47.30.050](#) - Expenditures for paths and trails - minimum amount
- [RCW 28A.520.010](#) & [.020](#) (Federal Forest)
- [RCW 84.33](#) (Timber Excise Tax)
- Road Levy collections

[County by County Comparison](#) (location of collections versus expenditures)

### **Setting Priorities**

- Priority Arrays
  - Criteria List
  - Criteria Weighting
  - Ranking
  - Relationship between multiple programmatic priority arrays
- Can you define and separate proposed actions?
  - Critical
  - Needed
  - Wanted
  - Wish List
- What factors influence your ability to implement?
  - Whose plan is this
  - General plan or specific expectation
  - Timing and coordination factors
  - Financing plan and cash flow
  - Natural resources regulations
  - Authority to proceed
  - Weather

### **Priority Programming**

It is very common that independent priority programs (priority arrays) exist for each of the programmatic areas listed under [Section 3.2](#). The broad use of the term “priority programming” also includes the priority relationships between each of the program areas.

Each priority array should include:

- Asset Inventory (objective measure)
  - Location
  - Condition
  - Existing planned action (what and when)
- Objective factors that influence the prioritization process
  - Adopted level of service standards
  - Legal obligations
  - Financial constraints
- Subjective factors that influence the prioritization process
  - Prioritized programs or project types
  - Prioritized geographic areas
  - Financial opportunities (outside funding assistance)

## **Priority Programming as a part of the Six-Year Road Program**

While the term “priority programming” generally refers to any project and program rating, ranking, and selection process, it also has specific meaning pertaining to development of the six-year transportation program ([WAC 136-15](#)), which includes:

### [WAC 136-15-050](#) - Adoption and submittal of six-year program

“A six-year program shall be adopted by resolution of the county legislative authority ... The resolution of adoption shall include reference to availability of:

- 1) A priority array as required by [WAC 136-14-050](#);
- 2) An engineer's bridge condition report as required by [WAC 136-20-060](#); ...”

### [WAC 136-14](#) - Priority Programming (standard of good practice)

- Required activities guiding development of Six-Year and Annual Road Programs
- Required for arterial system / recommended for local access roads
- Shall include consideration of:
  - Traffic volumes
  - Roadway conditions
  - Geometrics
  - Safety and accident history
  - Matters of local significance
- Bridges - see [WAC 136-20](#) - Inspection of Bridges
- County’s established methodology shall be submitted to CRAB on request
- (Priority Array) Minimum update by June 1st odd-numbered years

See also Section [3.2.11](#)

## **Financial Planning**

The requirement of a “fiscally constrained” program is associated with development of the statewide STIP (federally funded projects) for the first four years of the Six-Year Program. This limitation does not apply to the requirements of [WAC 136-15-030](#) (six-year program revenue and expenditure analysis) which states:

“The road fund revenue and expenditure analysis shall include the county’s best estimates of future road fund revenues and expenditures over each year of the six-year program period. ...”

Finalization and adoption of prioritized project lists will certainly have a financial element. Since project cost estimates are a major part of final adoption, in order to minimize cost surprises at the time of adoption it is recommended that as priority arrays are developed they include financial elements as early as possible.

<b>Safety Management System (SMS)</b>	<b>3.2.2</b>
<a href="#">Supp Res</a> <a href="#">TOC</a>	

A Safety Management System (SMS) is a systematic process for providing objective information that helps agencies identify and prioritize safety needs and choose cost-effective strategies to improve the safety of their transportation systems. The purpose of a SMS is to provide consistent and accurate information to decision-makers based on actual conditions.

#### Chapter 9 - WSDOT Traffic Manual

<http://www.wsdot.wa.gov/Publications/Manuals/M51-02.htm>

9.1 - General --- "The Safety Management System (SMS) is a systematic process designed to assist decision makers allocate limited transportation safety resources. Through SMS, the state defines, prioritizes, and measures the effectiveness of safety efforts."

#### Federal Highway Administration

[Implementing Local Agency Safety Management](#)  
[Highway Safety Improvement Program](#)  
[Local and Rural Road Safety Program](#)  
[Data and Analysis Tools](#)  
[Pedestrian & Bicycle Safety](#)  
[Tools to Diagnose and Solve the Problem](#)  
[Intersection Safety](#)  
[Roadway Departure Safety](#)  
[Roadway Safety Data Program](#)  
[Road Safety Audits](#)  
[Tools and Technology](#)  
[Systemic Approach to Safety](#)

While a strongly recommended process, no specific state or federal requirements exist at this time for a general system of this type. However, federal and state safety project grant programs generally require use of data and analysis that is common to a functional safety management system in order for funding applications to be successful.

<b>Non-Motorized Program</b>	<b>3.2.3</b>
	<u><a href="#">Supp Res</a></u> <u><a href="#">TOC</a></u>

To be classified as part of the “county road system”, it is reasonable to argue that a Road Fund investment on a non-motorized facility is allowed, if:

1. There is a clear connection with the purpose and functioning of a county road;
2. It is designed to create or improve the operation and safety of a county road system facility (i.e. separating conflicts); and,
3. There are ongoing operational investments in order to sustain it as a part of the county road system.

A 2014 court decision provided some guidance on this topic, summarized and posted on the MRSC website, [Bike Trails for Transportation or Recreation](#).

Following are various statutory references pertaining to non-motorized functions and facilities.

[RCW 36.81.121](#) - Perpetual advanced six-year plans for coordinated transportation program, expenditures — Nonmotorized transportation — Railroad right-of-way.

“(2) Each six-year transportation program forwarded to the secretary in compliance with subsection (1) of this section shall contain information as to how a county will expend its moneys, including funds made available pursuant to chapter [47.30 RCW](#), for nonmotorized transportation purposes.”

[RCW 36.75.240](#) - Sidewalks and pedestrian paths or walks ...

[RCW 36.82.145](#) - Bicycle paths ... county road fund ...

[RCW 47.30](#) - Trails and paths

[47.30.005](#) - Definitions

[47.30.010](#) - Recreational trail interference

[47.30.020](#) - Facilities for nonmotorized traffic -- Joint usage of rights-of-way

[47.30.030](#) - Facilities for nonmotorized traffic -- Expenditure of available funds

[47.30.040](#) - Establishing paths and trails -- Factors to be considered

[47.30.050](#) - Expenditures for paths and trails -- Minimum amount

[47.30.060](#) - Expenditures deemed to be for highway purposes

[47.30.070](#) - Bicycle, equestrian, pedestrian paths as public highways

While [RCW 47.30](#) clearly requires a minimum level of expenditure towards trails and paths, it is important to note that the source of revenue being set aside for this “minimum” level of expenditure is Fuel Tax. Regardless of what the statutory language appears to say, or could be interpreted to say, use of Fuel Tax is highly restricted by the State’s Constitution, and statutory language cannot contradict, modify or replace these legal restrictions.

[Transportation Resource Manual](#), 18<sup>th</sup> Amendment

	<b>Surface Water Management (SWM)</b>	<b>3.2.4</b>
--	---------------------------------------	--------------

[Supp Res](#) [TOC](#)

While county roads rely on properly functioning surface water systems (both natural and created drainage and flood control systems), there are legal limitations on the use of the Road Fund to pay for surface water management activities. Expenditure of Road Funds can only be for a “county road purpose”. This should never be confused with a “general county purpose”, a created and specially financed (surface water) “county department”, the allowable functions of an independent or county sponsored “special purpose district”, or a “private purpose”.

  - [136-170](#) - (CRAB/County contract)
  - [136-180](#) - (vouchers)
  - [136-210](#) - (design standards)
- CRAB / County Contract - County Certification
  - The county is in compliance with the provisions of [WAC 136-150](#)
  - If the project is reconstruction in scope, the county will gain approval from WSDOT for all deviations from the design standards
  - If the project is 3R (resurfacing, restoration, and rehabilitation) in scope, the county will document its design considerations for the proposed improvements
  - The project will be constructed in accordance with the Final Prospectus, the CRAB/County Contract, and the plans and specifications
  - It will notify the CRABoard when a contract has been awarded and/or when construction has started, and when the project has been completed.
  - It will reimburse the RATA in the event a project post audit reveals improper expenditure of RATA funds.

### **RAP Eligibility**

Inappropriate use of Road revenues for non-road purposes carries with it, at a minimum, immediate loss of eligibility for Rural Arterial Program funds ([RCW 36.79.140](#) / [WAC 136-150-010](#)). Specific exceptions and clarifications include:

- Counties with a population of less than eight thousand; or,
- Counties that expend these funds pursuant to a voter-approved action under [RCW 84.55.050](#) (voter approved levy for a specific purpose)
- Community revitalization under [RCW 39.89](#)
- Counties that consist entirely of islands, for marine facilities, including mooring buoys, docks, and aids to navigation. ([RCW 36.82.070](#)) See Certification of Road Fund Expenditures for Marine Navigation and Moorage ([WAC 136-150-025](#))

<b>County Arterial Preservation Program (CAPP)</b>	<b>3.2.9</b>
	<u><a href="#">Supp Res</a></u> <u><a href="#">TOC</a></u>

- [RCW 46.68.090](#) - Distribution of Statewide Fuel Taxes
  - (2)(i) - “For distribution to the county arterial preservation account ... The county road administration board shall adopt reasonable rules and develop policies to implement this program and to assure that a pavement management system is used.”
- [WAC 136-300](#) - Administration of the County Arterial Preservation Program

<b>Annual Road Program</b>	<b>3.2.13</b>
	<u><a href="#">Supp Res</a></u> <u><a href="#">TOC</a></u>

*Annual Road Program = ACP + Maintenance Plan + Equipment Plan*

- **Annual Construction Program(ACP)**
  - [RCW 36.81.130](#)
  - [WAC 136-16](#)
  - Annual declaration of intent, implemented through the budget
  - Otherwise known as the Capital Program, or TIP
- Minimum Contents
  - [WAC 136-16-020](#)
- Miscellaneous and Alternate Projects
  - [WAC 136-16-025](#)
    - May include an item for “miscellaneous unspecified” not to exceed 10% of the total program
    - May include a list of alternate projects
- **Maintenance**
  - [RCW 36.81.130](#)
  - [WAC 136-16-035](#)
  - Parallel to the financial plan required as a part of the Six-Year Program
  - Submitted to the legislative authority as a part of the October county engineer recommendation
  - Submitted as a part of both the “annual budget” and “maintenance management” to CRAB -- not required on the ACP form
- **Road Equipment Purchases**
  - [WAC 136-16-030](#)
    - Include all major road equipment purchases and planned repairs
    - Include recognition of miscellaneous minor equipment
    - “Alternate” and “unforeseen” can account for up to 15% additional
- Submitted to Legislative Authority by 1st Monday in October
  - [WAC 136-16-010](#)
  - “no later than” submittal requirement for recommended:
- Adoption prior to budget
  - [RCW 36.81.130](#)
  - [WAC 136-16-018](#)
  - Becomes void unless adopted prior to the budget
- Submittal to CRAB
  - [WAC 136-16-040](#) - Submittal required within 30 days of adoption or December 31st, whichever comes first, including a copy of the adopting resolution
- Amended Annual Road Program
  - [WAC 136-16-042](#) - requires unanimous vote (of those members present)
- Annual Construction Report
  - [WAC 136-16-050](#)

County Forces Construction (CFC) - See [Section 3.2.13](#) for details

<b>County Forces Construction</b>	<b>3.2.14</b>
	<a href="#">Supp Res</a> <a href="#">TOC</a>

- Intention to utilize County Forces for Road Construction initially declared as a part of the Annual Construction Program
  - [RCW 36.81.130](#)
  - [WAC 136-16-022](#) (annual road program)
- [RCW 36.77.065](#) (permission to utilize county forces and limitations)
- [WAC 136-18](#) - Standard of good practice - construction by county forces
- See Annual Construction Program (December 31st submittal), "[CFC Limits](#)"
- Advertising - [RCW 36.77.070](#)
  - Before project
  - Following project completion
  - Required if greater than \$10,000
  - Legislative/Executive Authority subject to fine if not accomplished

County Forces Limit pertains to the total of all county forces "road construction project costs" in a given calendar year, excluding "...those costs assigned to the right-of-way account, ancillary operations account, preliminary engineering account, and construction engineering ..." ([RCW 36.77.065](#) (1) (b))

It is common for a county to assign public works/road crew employees to perform construction work ("public works" per [RCW 39.04.010](#) (4)) for other county departments or entities (parks, facilities, drainage utility, etc.), with the Road Fund being reimbursed for the cost of the work performed. This is not County Forces Construction since the work performed is not road construction. In addition, this type of work does not receive the permissive benefit of [RCW 36.77.065](#) for county employees to perform. Other county public purchasing rules must be applied.

For projects that are accomplished through use of county forces, the "project costs" include work of all subcontractors and materials, regardless of whether subcontractor work or material supply is acquired through competitive bidding. In this type of situation, the county would be considered the "prime contractor" since it cannot separate its role in all work being performed.

Phased Projects – Separate Utility – CFC Phases, Seek CRAB staff guidance!

Special Provision -- [RCW 36.77.065](#) (7) -- Electrical Work -- County Forces may not be utilized on electrical work exceeding \$40,000, including the prohibition of dividing the "project" into work elements to avoid this cost limitation. Project work of this type commonly associated with traffic control features and systems.

<b>3.3 Annual Budget</b>	<b>3.3.0</b>
	<a href="#">Supp Res</a> <a href="#">TOC</a>

## **Budget Process**

[RCW 36.40.010](#) - Estimates to be filed by county officials

“On or before the second Monday in July of each year, the county auditor or chief financial officer designated in a charter county shall notify in writing each county official ... to file ... on or before the second Monday in August ... both of the probable revenues from sources other than taxation, and of all expenditures ... for the ensuing fiscal year.”

[RCW 36.40.050](#) - Revision by county commissioners.

“The budget shall be submitted by the auditor or chief financial officer designated in a charter county to the board of county commissioners on or before the first Tuesday in September of each year. The board shall thereupon consider the same in detail, making any revisions or additions it deems advisable.”

[RCW 36.82.160](#) - County road budget — Road budget to be prepared — Estimates of expenditures.

“Each county legislative authority, with the assistance of the county road engineer, shall prepare and file with the county auditor on or before the second Monday in August in each year, detailed and itemized estimates of all expenditures required in the county for the ensuing fiscal year.”

[RCW 36.82.170](#) - County road budget - budget as adopted filed with department of transportation

## **Adopted Budget**

The adopted budget is a formal listing of approved “maximum” expenditure authority, as well as predicted revenues. While a budget document may list expenditures to a high level of detail, actual budgetary expenditure authority, or “budget control”, is usually established at the bottom line of the fund level.

While “budget control” may provide a high level of flexibility for administrative adjustments without the legal requirement for a formal budget amendment, maintaining respect for the original legislative authority review and approval, and associated public process, is very important.

See also -- SAO / BARS Manual -- Budgeting – ([Cash](#)) / ([GAAP](#))

## **Biennial Budget**

[RCW 36.40.250](#) - Biennial budgets ...

“In lieu of adopting an annual budget, the county legislative authority of any county may adopt an ordinance or a resolution providing for biennial budgets with a mid-biennium review and modification for the second year of the biennium. ...”

*Note: Exercise of the “biennial budget” authority does not relieve the county from annual compliance and reporting protocols.*

Traffic Law Enforcement	3.3.1
	<a href="#">Supp Res</a> <a href="#">TOC</a>

**NOTE: While [RCW 36.79.140](#) uses the terminology “traffic law enforcement”, this statute is specifically referring to Article II, Section 40, of the State Constitution. The terminology used in the constitution is “policing ... of public highways”. The reader is advised that these two terms are considered identical in meaning both within this document and for purposes of CRAB regulatory activities.**

While there are no specific definitions of “traffic law enforcement” in RCW, the following list is intended to be guidance as to what would generally be considered as traffic law enforcement activities ([WAC 136-25](#) - standard of good practice - traffic law enforcement expenditures):

- Speed limit and other traffic law enforcement
- Collision investigation documenting/reporting
- Oversize vehicle (weight, length, width, and height) enforcement;
- Special traffic emphasis patrols
- Facilitating the removal of abandoned vehicles from the county road and rights-of-way
- Facilitating the removal of roadway and right-of-way obstructions
- Investigating illegal littering and dumping on county road rights-of-way
- Sign damage investigation and enforcement
- Road condition enforcement, including mud, water, debris, or spills
- Rights-of-way encroachment investigation and enforcement
- Maintenance and construction zone traffic enforcement
- Road department vehicle collision investigation
- Other activities clearly related to county road law enforcement needs

The evaluation of whether use of Road Fund resources are considered allowable traffic law enforcement costs is based exclusively on:

- Was the activity performed on a county road or within a county road right-of-way or work zone?
- Was documentation created that summarizes the purpose and outcome of the activity?
- Was a cost accounting system used (records and procedures) that documents the traffic law enforcement costs?

There are three methods by which financial resources, which would otherwise be allocated to normal road department activities (maintenance, operations, construction, etc.), can be made available and used for traffic law enforcement:

- Budgeted Road Fund Expenditures (Payments for Service, Direct Transfers)
- Road Levy Diversion
- Road Levy Shift

### **Indirect Costs / Overhead**

FHWA --- Federal Aid Essentials for Local Public Agencies ---

[Developing an Indirect Cost Allocation Plan](#)

## Operations

Four quantifiable resource components for performance of maintenance activities:

- Labor
- Equipment
- Material
- Administration / Overhead - direct and indirect costs associated with acquisition and allocation of the above three resource components

Three maintenance function types:

- Routine - normal day-to-day planned and budgeted activities that keep roads safe and operational
- Preventive - planned and budgeted activities intended to restore items to good condition
- Reactive - unanticipated failures of road prism or surfaces, loss of signs, snow and ice control, debris on road, etc.

[Weeds and Other Nuisance Vegetation](#)

[Snow and Ice control](#)

[RCW 36.87.100](#) and [.110](#) make reference allowing counties to establish a road maintenance classification system. It is recommended the county consider formally establishing such a system for a number of other operational and liability benefits.

## **Fleet and Inventory Management**

[RCW 36.33A](#) ; [WAC 136-600](#) – Equipment Rental & Revolving Fund

[RCW 36.75.280](#) - Centralized repair and storage of machinery, equipment, supplies, etc.

### Internal Service Fund

- To be used for activities that provide goods and services to other funds or departments or other governments on the cost reimbursement basis
- If the contributed nonmonetary assets were originally acquired with restricted resources, the government must monitor their usage and disposal to assure that one fund does not benefit from another ([RCW 43.09.210](#))
- Contributed capital to be managed for the benefit of the contributing fund
- Requires 100% recovery of:
  - all costs to manage contributed capital until fully consumed or otherwise disposed of; OR,
  - all costs to manage contributed capital plus adequate fund contributions for future asset replacement
  - overhead

See also Public Fleet Managers Association ([PFMA](#))

US Code, [Title 23, Section 409](#) - provides legal protection for agencies that proactively collect and analyze traffic and accident data for safety program and project development

<b>4.4 Right-of-Way Management</b>	<b>4.4.0</b>
	<a href="#">Supp Res</a> <a href="#">TOC</a>

Actions to determine the legal status of right-of-way and the roadways thereon are case specific and commonly require court involvement in order to separate fact from claim.

**What is right-of-way?** --- See MRSC, [What is the Nature of a Public Right-of-Way?](#)

#### **County Road versus County Right-of-Way**

While “road” and “right-of-way” cannot be truly separated as a functional matter, they are very different legal concepts, generally described as follows:

- Acquire or vacate a property interest - right-of-way, easement, etc.
- Establish or abandon an operational function - road, trail, etc.

Road right-of-way:

Cannot be considered separate, fee simple land since

- It cannot be sold to any willing buyer since the public interest can only be vacated and returned to the original underlying owner
- Other than new rights-of-way within plats, acquisition of right-of-way does not go through any subdivision process

Cannot simply be considered an easement since

- The public entity controls all use
- The land is no longer taxed since it becomes a public asset

[RCW 84.36.210](#) - Public right-of-way easements

<b>4.6</b>	<b>Local Development and Development Review</b>	<b>4.6.0</b>
		<a href="#"><u>Supp Res</u></a> <a href="#"><u>TOC</u></a>

### **Codes, Policies, and Standards**

[RCW 36.70B.040](#) - Determination of consistency

Requires a proposed project be consistent with the comprehensive plan and associated development regulations

[RCW 36.70B.170](#) through [.210](#) - Development agreements

[Title 58 RCW](#) - Boundaries and plats

### **Subdivisions**

While the following statutory references are the basis of land subdivisions, the county's land use plan and land development codes most likely describe both permitted and non-permitted land subdivisions, as well as all procedural steps required for review and approval.

[Title 58 RCW](#) - Boundaries and plats

[RCW 58.04](#) - Boundaries

[RCW 58.08](#) - Plats - recording

[RCW 58.10](#) - Defective plats legalized

[RCW 58.17](#) - Plats - subdivisions - dedications

[RCW 58.18](#) - Assessor's plats

[RCW 58.19](#) - Land development act

### **Impact Mitigation**

Case law that clearly limits conditioning of developments only for:

- Directly related and quantifiable impacts
- Fair share for cumulative impacts, so long as others assessed similarly

[RCW 43.21C](#) - State environmental policy

[RCW 58.17.110](#) - Approval or disapproval of subdivision and dedication ...

[RCW 82.02](#) - .050 through .110 (impact fees)

[RCW 36.32.510](#) - Right-of-way donations ...

[RCW 58.17.165](#) - ... final plat ... dedication

[RCW 58.17.130](#) - Bond in lieu of actual construction ...

<b>4.7</b>	<b>Emergency Response</b>	<b>4.7.0</b>
		<a href="#">Supp Res</a> <a href="#">TOC</a>

### **Declaration of Emergency**

Each formal action by the county legislative authority (or when allowed, action by a designated official), should contain the following within the declaration document:

- Legal basis for the declaration
- Description of the incident or situation warranting action
- Scope of response
- Beginning and ending time of emergency authority
- Who has authority to act under the declaration, delegation of authority

#### [RCW 36.32](#) - County Commissioners

[36.32.235](#) - Competitive bids ...

[36.32.270](#) - Competitive bids - exemptions (refers to [39.04.280](#))

[36.32.280](#) - Regulation of watercourses

[36.32.290](#) - Regulation of watercourses - removal of obstructions

[36.32.300](#) - Regulation of watercourses - trees may be removed ...

#### [RCW 36.40](#) - Budget

[36.40.140](#) - Emergencies subject to hearing

[36.40.180](#) - Emergencies subject to hearing - nondebatable emergencies

#### [RCW 38.52](#) - Emergency Management

[38.52.010](#) - Definitions

[38.52.020](#) - Declaration of policy and purpose

[38.52.070](#) - Local organizations ... emergency powers

[38.52.390](#) - Contracts ... for emergency management activities

[WAC 118-30](#) - Local emergency management ...

#### [RCW 39.04](#) - Public works

[39.04.020](#) - Plans and specifications ... emergencies

[39.04.280](#) - Competitive bidding ... Exceptions

[39.04.290](#) - Contracts for ... engineering ...

#### [RCW 39.28](#) - Emergency public works

[39.28.010](#) - Definitions

[39.28.030](#) - (powers of municipalities)

#### [RCW 39.80](#) - Contracts for architectural and engineering services

[39.80.060](#) - Procurement ... exception for emergency work

[RCW 43.06](#) - Governor

[43.06.010](#) - General powers and duties (see sub-section 12)

[RCW 43.21C](#) - State environmental policy

[43.21C.110](#) - (exempt in emergencies)

[43.21C.210](#) - Certain actions during state of emergency ...

[WAC 197-11-880](#) - Emergencies

[RCW 77.55](#) - Construction projects in state waters

[77.55.011](#) - Definitions

[77.55.021](#) - (8) (emergency permit)

[WAC 220-660-030](#) - Definitions

[WAC 220-660-050](#) (4) (emergency HPA)

### **Emergency Response Plan**

[RCW 38.52.070](#) - Local organizations ... establishment, operation ...

[WAC 118-30-040](#) - Responsibilities of political subdivisions

[WAC 118-30-060](#) - Emergency plan

### **Mutual Aid**

[RCW 38.52](#) - Emergency Management

[RCW 38.52.010](#) - Definitions

“(6)(a) "Emergency or disaster" as used in all sections of this chapter except [RCW 38.52.430](#) shall mean an event or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, ..., or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to [RCW 43.06.010](#).

The concept of Mutual Aid is based on the authority between governments to execute Interlocal Agreements. [RCW 39.34](#) - Interlocal cooperation act

Highways & Local Programs (WSDOT) administers a mutual aid program available to all counties - [Emergency Relief Program](#)

CRAB – [Emergency Loan Program](#) - [WAC 136-500](#)

**CRAB Reports Due by December 31<sup>st</sup>** (C.A.R.S – CRAB Annual Reporting System)  
Accessed thru Secure Access Washington(SAW)

- Annual Construction Program ([WAC 136-16-040](#))
  - Listing of all proposed design, right-of-way, and construction projects
  - Listing of major equipment purchases and planned repairs
  - Proposed county forces construction project expenditures
  - Include submittal of adopting resolution
- County Arterial Preservation Program ([WAC 136-300-060](#))  
Program level information – rules, CAPP eligible activities, funding sources
- Pavement Management Certification ([WAC 136-70-070](#))  
Reporting County's compliance with PMS requirements
- County Road Budget Summary (various)  
Supporting documentation pertaining to various compliance issues
- Maintenance Management Work Plan/Budget  
(WAC [136-11-040](#) & WAC [136-11-050](#))  
Listing of planned activities and supporting data
- Engineer's Certification of the December submittals  
Allows electronic submission of above forms, with a single signature form

**Copy of Non-CRAB Form Due by December 31<sup>st</sup>**

- Copy of adopted Six-Year Program, including a copy of the adopting resolution  
[WAC 136-15-040](#) – minimum project information

**CRAB Reports Due by March 1<sup>st</sup>**

(Note: Documentation of adopted road levy, and its intended use, for the current year)

- Road Levy Certification ([WAC 136-150-021](#))  
Documentation pertaining to RAP eligibility determination
- Engineer's Certification of Above Form  
Signature form allowing electronic submission of above form

## **CRAB Reports Due by April 1<sup>st</sup>**

- Traffic Law Enforcement Certification ([WAC 136-150-022](#))  
Documentation pertaining to RAP eligibility determination
- Fish Passage Barrier Expenditures ([WAC 136-150-023](#))  
Documentation pertaining to RAP eligibility determination and general compliance with RCW
- Annual Construction Report ([WAC 136-16-050](#))  
Documenting road construction activities compliance with Annual Construction Program and County Forces Construction limitations
- Annual County Arterial Preservation Accomplishments Report ([WAC 136-300-090](#))  
Documenting all CAPP eligible work including PMS and MMS activities
- Annual Certification for Maintenance Management ([WAC 136-11-050](#))  
Documenting MMS, developed and implemented
- Ascertaining the expenditures for Marine Navigation and Moorage purposes ([WAC 136-150-025](#)) Counties entirely consisting of islands – *San Juan and Island counties only*
- Annual Ferry System Operations Report (*required by counties operating vehicle ferries - Whatcom, Skagit, Pierce, Wahkiakum*)  
Data used for Fuel Tax distribution calculations, fare deficit subsidy
- Annual Certification ([WAC 136-04-030](#))  
Summary of required compliance issues associated with issuance of Annual Certificate of Good Practice
  - If required, includes explanation regarding projects not originally listed on Annual Construction Program
  - Includes a copy of the bridge inspection report
  - WSDOT Local Programs submits letter documenting each county's compliance with NBIS
- Engineer's Certification of April Submittals  
Allows electronic submission of above forms, with a single signature form
- Road Log Signature Certification (WAC 136-60)  
  
County Road Log ([WAC 136-60-030](#)) (electronically in GisMo)  
Road Log Action Record ([WAC 136-60-050](#)) (electronically in GisMo)

<b>5.2 Year-end Fiscal Closeout</b>	<b>5.2.0</b>
	<a href="#">Supp Res</a> <a href="#">TOC</a>

### **County Annual Financial Report**

[RCW 43.09.230](#) - Local Government Accounting - annual reports

“The state auditor shall require from every local government financial reports covering the full period of each fiscal year, in accordance with the forms and methods prescribed by the state auditor ... Such reports shall be prepared, certified, and filed with the state auditor within one hundred fifty days after the close of each fiscal year.”

### **WSDOT Report Due by May 31st**

- [RCW 36.75.260](#) - Annual report to Secretary of Transportation
  - County / City / State revenue and expenditure data compiled by WSDOT
    - Beginning in 2012 (reporting 2011 financial information), transportation revenues and expenditures are reported to WSDOT through an online application -- [Local Highway Finance Tracking \(LHFT\)](#) system
    - Cities and Counties now submit their annual road and street financial report through SAO's online filing system at <https://portal.sao.wa.gov/SAOPortal/Login?appUrl=%2fLGCS%2f&returnUrl=%2fLGCS%2f>
  - WSDOT reports compiled data to FHWA (report known as the 536 Report due to use of FHWA form number 536)

Refer to FHWA - [Guide to Reporting Highway Statistics](#)

- Chapter 11 - Receipts and Expenditures of Local Governments
- USDOT required to “promote and undertake development, collection, and dissemination of technological, statistical, economic, and other information relevant to domestic and international transportation. ... engage in studies to collect data concerning highway planning, development, financing, construction, operation, modernization, maintenance, safety, and traffic conditions and to publish the results of such research ...”

<b>5.3</b>	<b>Annual Audits and Special Audits</b>	<b>5.3.0</b>
------------	---	--------------

[Supp Res](#) [TOC](#)

### Project Audits

Specific Scope - based on the terms of the grant agreement

Multi-project - based on funding source (collection of grant agreements)

### Whistleblower

Specific Scope (likely confidential investigation) - starts with an allegation of wrongdoing

### State Auditor Audits ([RCW 43.09.260](#) - Audit of local governments)

- Financial
- Accountability
- Single Federal Audit
- Performance (not a standard part of annual audit)

Final [audit documents](#) are available through the State Auditor's Office Website.

Focus of Audits (based on Generally Accepted Auditing Standards - GAAS)

- Internal Control -- Ability to catch and correct problems
- Legal Compliance -- Federal and State grant requirements
- Financial Statements -- Whether they present fairly the financial position of governmental activities
- Accountability
  - Compliance with various governing laws, regulations, policies, and procedures
- Performance
  - Efficient and effective use of public resources
  - Results in "recommendations" rather than "findings"

Findings and Management letters

- Magnitude of Internal Control Deficiency
  - (n/a)
  - Inconsequential
  - (neither)
  - Material
- Likelihood of Internal Control Deficiency
  - (n/a)
  - Remote
  - (neither)
  - More than Remote
- More than Remote & Not Inconsequential = Management Letter
- More than Remote & Material = Finding
- Anything else = verbal notice

Government Auditing Standards - prepared and distributed by the U.S. Government Accountability Office (GAO), referred to as "The Yellow Book" or the acronym [GAGAS](#)

<b>Section 6</b>	<b>County Road Administration Board</b>	
------------------	---	--

<b>6.0</b>	<b>CRAB Organization</b>	<b>6.0.0</b>
------------	--------------------------	--------------

[Supp Res](#) [TOC](#)

***CRAB was created in 1965 as a regulatory agency. While compliance remains a significant function, support and assistance is the preferred methodology to achieve this.***

**CRAB, as an Authorized State Agency:**

[RCW 36.78.070](#) – Duties of board

“The county road administration board shall:

- (1) Establish by rule, standards of good practice for the administration of county roads ...;
- (2) Establish reporting requirements for counties with respect to the standards of good practice ...;
- (3) Receive and review reports from counties and reports from its executive director to determine compliance ...;
- (4) Advise counties on issues relating to county roads ... and assist counties in developing uniform and efficient transportation-related information technology resources;
- (5) Report annually ... to the state department of transportation and to the chairs of the house and senate transportation committees ...;
- (6) Administer the rural arterial program, the county arterial preservation account, County Ferry Capital Improvement Program, Emergency Loan Program ...”

**CRABoard** - current [CRABoard Members](#)

[RCW 36.78.030](#) - Board created -- Number -- Appointment -- Terms -- Vacancies.

“There is created hereby a county road administration board consisting of nine members who shall be appointed by the executive committee of the Washington state association of counties. ...”

[RCW 36.78.040](#) - Composition of board -- Qualifications of members.

“Six members of the county road administration board shall be county legislative authority members and three members shall be county engineers. ... Not more than one member of the board shall be from any one county.”

[Title 136 WAC](#) pertains to the exercise of responsibility and authority of the County Road Administration Board, as adopted by this board:

- WAC 136-01 thru -04 – CRAB general organization and policies (4)
- WAC 136-11 thru -70 – Standards of Good Practice (13)
- WAC 136-100 thru -210 – Rural Arterial Program (10)
- WAC 136-300 – County Arterial Preservation Program
- WAC 136-400 – County Ferry Capital Improvement Program
- WAC 136-500 – Emergency Loan Program (ELP)
- WAC 136-600 – Equipment Rental and Revolving Fund

#### [WSAC](#) - Washington State Association of Counties

The Washington State Association of Counties (WSAC) works to advocate for local government needs and support critical county services for a century. WSAC members include elected county commissioners, council members and executives from all of Washington's 39 counties. WSAC works with many partners and affiliate organizations, including county engineers, public health officials, planners, emergency managers, county administrators, clerks of county boards and councils, county extension agents, parks and recreation managers, human service managers, and others.

#### [WSACE](#) - Washington State Association of County Engineers

The mission of the Washington State Association of County Engineers, as an affiliate member of the WSAC is to enhance leadership effectiveness by providing more opportunities for professional development, building professional relationships, and advocating stewardship of the environment and infrastructure with which we have been entrusted, for the benefit of present and future generations.

#### [AWC](#) - Association of Washington Cities

The Association of Washington Cities (AWC) is a private, non-profit, non-partisan corporation that represents Washington's cities and towns before the state legislature, the state executive branch and with regulatory agencies. AWC staff focuses on five service areas: legislative representation, educational training, publications and resources, technical assistance, and member programs.

#### [NACO](#) - National Association of Counties

The association was formed to stimulate the continuing improvement of county government; to speak nationally for county government; to contribute to the knowledge and awareness of the heritage and future of county government; to serve as a liaison between the nation's counties and other levels of government; and to achieve public understanding of the role of counties in the federal system.

#### [NACE](#) - National Association of County Engineers

As an affiliate of NACO, NACE has membership open to county engineers or county road officials.

	<b>Desk Manual / Desk Reference Change Record</b>	<b>8.6.0</b>
--	---	--------------

[TOC](#)

To confirm the most recent date of section amendments and associated supplemental materials, refer to the [CRAB Website Engineering / Resources / Desk Reference Manual](#).

### **DESK MANUAL CHANGE RECORD SUMMARY**

January 2010 - Initial release of the new "County Engineers' and Public Works Directors' Manual" Book II (Reference Manual)

March 2010 - Update to the January 2010 Book II release

November 2010 - Original release date for the full revised version of the Desk Manual, replacing all previous versions of the Desk Manual.

Additional updates to the Desk Manual were released:

May 2011, November 2011, October 2012, September 2013, October 2014, March 2016, and October 2016

### **DESK REFERENCE CHANGE RECORD SUMMARY**

November 2017 (amends and replaces the October 2016 Desk Manual in its entirety)

- Update Introduction and Change Record
- Repair of various broken web-links and update to selected link titles
- TOC – updated to match various section changes and added page numbering
- Condense content, retaining most internet links and eliminating most narrative

April 2018

- Update Introduction and Change Record
- Repair of various broken web-links and update to selected link titles
- 1.1.1 - add original adoption dates for county charters
- 3.1.2.1 - add link to DOR "highest Lawful Levy" form
- 4.1.0 - add link to WSDOT "ADA Design and Technical Assistance"

May 2019

- Update Change Record
- Repair of various broken web-links and update to selected link titles
- Update CRAB website references due to new CRAB website launch 12/18
- 7.0.0 - Retool Section 7 CRAB Web-Site to conform with new CRAB website format
- 3.3.1 - add link to "AGO 2017 No. 1"
- 2.1.4 - add "change" to CE vacancy Standard of Good Practice

#### May 2021

- Update Change Record
- Repair of various broken web-links and update to selected link titles
- Update CRAB website references due to CRAB website migration to WaTech in 2020
- 2.1.1.0 - add link to new state agency, Board of Registration for Professional Engineers and Land Surveyors (BORPELS)
- 2.1.4 - add new CRAB rules WAC 136-500, Emergency Loan Program
- 2.3.0 – add info on indirect costs(plans), interfund loans, direct transfers
- 2.4.0 – update Limited Public Works Process, \$35,000 to \$50,000
- 3.1.2.2 – update fuel tax note “1-cent =...”
- 3.1.2.3 – add to Loans section, ELP, interfund loans
- 3.2.2 – replace note
- 3.2.8 – update some language to be more consistent with the WAC rules
- 3.2.11 – add new section, Emergency Loan Program
- 3.2.14 – add language regarding phased projects
- 4.4.0 – add Jurisdiction Transfer Ch. 39.33.010 RCW and link, link to Fee/rental of ROW by utilities
- 5.3.0 – add Single Federal Audit
- 6.0.0 – add WAC 136-500 Emergency Loan Program
- 7.0.0 - Retool Section 7 CRAB Web-Site to conform with new CRAB website format

#### May 2023

- Consolidate and Update Change Record
- Repair of various broken web-links and update to selected link titles
- Fix page numbering in TOC
- 1.1.3 – update wording for some appointed officials
- 2.1.4 – add WAC 136-600 ER&R
- 2.1.4 – edit name of WAC 136-50, County Road Department Administration
- 2.4.0 – update language for RCW 36.32.235&240
- 2.4.0 – update Limited Public Works Process, \$50,000 to \$350,000
- 3.1.2.2 – add CFCIP to list of deductions from county MVFT general distribution
- 3.1.2.2 – add link to RUC
- 3.2.2 – delete note regarding systemic safety tool
- 3.2.6 – add PMS certification due December 31
- 3.2.7 – add additional bridge inspection standard of good practice language
- 3.2.12 – add minimum content language from WAC 136-15, six-year transportation program
- 4.1.0 – add DEI reference
- 4.2.0 – add WAC 136-600, ER&R
- 4.4.0 – add ROW continuum and reference to WAC 136-50, survey monument preservation policy
- 4.5.0 – add links to Brian Abbot FBR Board and the Salmon Recovery Funding Board
- 5.1.0 – minor edits to CRAB required reporting
- 5.2.0 – update Annual transportation rev/exp report to WSDOT, SAO portal
- 6.0.0 – update duties of the board, CRAB, add WAC 136-600 ER&R

#### May 2025

- Update Change Record
- Repair of various broken web-links and update to selected link titles
- Fix page numbering and update Section titles in TOC

- 1.1.1 – add Spokane and Thurston as five-member commissions, add council and elected Exec detail to home rule counties
- 1.1.3 – add language to Appointed Officials
- 1.2.0 – update link to County Road Inventory to new Road Almanac on CRAB website
- 2.1.1.2 – correct spelling error
- 2.2.0 – add language to Delegation through Transfer of Authority
- 2.4.0 – update Purchasing and Contracts Terminology and max \$\$ thresholds
- 3.1.2.2 – update numbers and citations
- 3.2.5 – removed link to CRAB website that is no longer applicable
- 3.2.10 – add ‘vehicle ferry’ to WAC 136-400 bullets
- 3.2.13 – update annual construction program(ACP) to annual road program
- 3.2.14 – add ‘BOCC’ to Advertising...
- 3.3.1 – reword last paragraph
- 4.2.0 – reword second set of bullet points, reorganize ‘Fleet and Inventory Management’
- 4.3.0 – add visual to ‘Engineering, Enforcement, and Education’
- 4.4.0 – ‘Surveying’ BORPELS position paper on incidental survey is no longer available of their website
- 4.7.0 - correct spelling error
- 5.1.0 – replace CARS system access information with Secure Access Washington(SAW) information, update CAPP Program form description to program-level-only, reorganize April reports section and add Road Log Certification
